

Block 2 Modification Specifications

1. Default Lead Disposition Pipeline (Super Admin & Users)

- **Default Status Assignment:** All leads assigned to users by the Super Admin must automatically display as **New Lead** in the **CURRENT DISPOSITION** section of the Assigned Leads Pipeline.
- **Lead Upload Integration:** Successful Leads that are uploaded by sub blocks inside Lead Upload Module, this leads are reflected in user dashboard . so these success full leads , their CURRENT DISPOSITION must be new lead by default . as this will be used in report sub block of Lead Upload Module for report generation by super admin
- **Report Counter Sync:** The total quantity of leads marked as New Lead must dynamically generate and print in the Block 3 Report sub-block.
- **Operational Flow:** Users will manually update this disposition status only after completing a sales call.

2. Configured Disposition List Schema Update (Super Admin & Users)

- **Lead Columns:**
 1. CONTACT NAME
 2. CONTACT NUMBER
 3. LANGUAGE
 4. CURRENT DISPOSITION
 5. POST CALL ACTION
- **Deprecated Columns:** Remove Client/Company, Assigned Owner, and Quick Updater from the disposition list UI entirely and add the above Lead Columns.

3. Disposition Setup & Dynamic Date/Time Controls

- **Super Admin Configuration:**
 - **Removed Field:** Delete the Description / Usage field from the Create Disposition menu.
 - **Calendar Toggle:** Add a configurable setting allowing the Super Admin to enable/disable a Date and Time picker for each specific disposition created.
- **User Level Execution:**
 - For any disposition where the Super Admin enabled Date and Time settings, users must be prompted to select and update a specific Date and Time when changing a lead's disposition. The updated date and time selected by the user must be displayed directly below the disposition status.
