

BLOCK ONE

1. Settings & User Creation Fields

- **Inputs:** User Name, Contact Number, Role, Email ID, Reporting Person, Employee ID, Role Master.
- **Role Master Breakdown:**
 - **Super Admin:** Only person able to create new slaves/employee IDs
 - **Admin:** Access granted/canceled via toggle on/off by Super Admin.
 - **Manager:** Able to view Team Leader and Executives work under them.
 - **Team Leader:** Able to monitor Executives data under them.
 - **Executive:** Access limited only to their own data/leads.
- **Executive Team Selection:** Choosing Executive must prompt to choose which team/manager (Super Admin can assign Executive to Team Lead).
- **Team Monitoring:** TL/Manager must see their teammates and their performance (Sales, MITC Status, Compliance status, etc.) under them.
- **Sale Approval Workflow:** Once a slave/employee gets a sale, notification goes to Super Admin for approval to finalize sale, after which it goes to eKYC.
- **Custom Roles:** Provision to create/modify multi-level roles (detailed in Annexure-I).

2. System Settings & Directory Controls

- **UI/UX Settings:** Option to change UI/UX color.
- **User Directory List:** Must show all available users, including the Super Admin account.
- **User Actions:** Option to modify user details, set to active/inactive/disable (remove access)
- **Password Management:** Super Admin access to use Change Password.
- **Search & Filters:** Search option required with Active and Inactive user filters.

3. Account Rules & Lead Reassignment

- **Default Display:** System always shows Active users only by default. Filter allows Super Admin to view Inactive users.
- **Deletion Rules:** Accounts cannot be deleted by general users. Resigned staff are marked as Inactive. Only Super Admin can delete user accounts.
- **Lead Reassignment:** Inactive users' leads can be assigned based on Super Admin's interest to another user.
- **Lead Reassignment Rule:** Before an inactive user is deleted, their assigned leads must be assigned to other users as per Super Admin's command.
- **Lead History:** The history of the leads must show to the new user.
